Hello. I am the President of the Ten Mile Creek Pleasant Valley Water and Sewer District. We are the edge of the City of Helena. We have been on our own well water system for over 30 years now and it works well for 315 houses in the Helena Valley. Not sure if we really have anything exciting but our system works well and in managed by the District.

--

The most basic question is not what is best, but who shall decide what is best.

The real goal should be reduced government spending, rather than balanced budgets achieved by ever rising tax rates to cover ever rising spending.
