"19-20-731. Postretirement employment limitations — cancellation and recalculation of benefits.

(1) (a) Except as otherwise provided in this section, a retired member may be employed part-time by a school district, state agency, or unit of the university system in a position eligible to participate in the retirement system and may earn, without an adjustment of retirement benefits, an amount not to exceed the greater of:

~~(a)~~(i) one-third of the sum of the member's average final compensation; or

~~(b)~~(ii) one-third of the median of the average final compensation for members retired during the preceding fiscal year as determined by the retirement board.

(b) For the purposes of this subsection (1), the maximum compensation that a retired member

employed by a school district that has fewer than 370 ANB may earn under subsection (1)(a) without an adjustment of retirement benefits includes all remuneration paid to the retired member, including but not limited to:

- (i) annuities;
- (ii) allowances for motor vehicles and housing;
- (iii) professional membership dues;
- (iv) maintenance;
- (v) day care;
- (vi) reimbursements for nonwork-related motor vehicle, travel, lodging, or entertaining expenses;

or

(vii) any similar payment for any form of maintenance, allowance, or expense.

(2) On July 1 of each year following the member's retirement effective date, the maximum that a retired member may earn under subsection (1)(a) is increased by an amount equal to the consumer price index increase for urban wage earners compiled by the bureau of labor statistics of the United States department of labor or its successor agency in the preceding calendar year.

(3) Except as provided in subsection (5), the retirement benefit of a retired member:

- (a) employed in a part-time position or earning more than allowed by subsections (1) and (2) must be temporarily reduced by \$1 for each dollar earned over the maximum allowed. Monthly benefits must be reduced beginning as soon as practical after the excess earnings have been reported to the retirement system by the employer. The retirement benefit must be canceled if the retired member's earnings over the maximum allowed exceed the gross monthly benefit amount.
- (b) employed in a full-time position must be canceled beginning in the month in which the retired member returns to full-time employment.

(4) Upon termination and retirement subsequent to a cancellation of benefits pursuant to subsection (3), the retirement benefit of a member:

- (a) who was reemployed and earned less than 1 year of creditable service must be reinstated beginning either the first of the month following termination or on July 1 following the date on which the retired member was reemployed, whichever is later. The reinstated retirement benefit is the amount and option that the retired member would have been entitled to receive had the retired member not returned to employment.
- (b) who was reemployed and earned at least 1 year of creditable service must be recalculated under 19-20-804 if the member has attained normal retirement age or under 19-20-802 if the member has not attained normal retirement age but is eligible for early retirement. The recalculated benefit is based on the service credit accumulated at the time of the member's previous retirement, plus any service credit accumulated subsequent to reemployment. The recalculated normal form benefit amount must be increased by the amount of any benefit enhancement received pursuant to 19-20-719 that the retired member was receiving when the member's benefits were canceled.

(5) If an early-retired member under 19-20-802 is reemployed with the same employer within 30 days from the member's effective date of retirement or if the early-retired member is guaranteed reemployment with the same employer, the member must be considered to have continued in the status of an active member and not to have separated from service. Any retirement allowance payments received by the member must be repaid to the system, together with interest, at the actuarially assumed rate, and the retirement allowance must be canceled."''

"76-3-504. Subdivision regulations — contents. (1) The subdivision regulations adopted under this chapter must, at a minimum:

(a) list the materials that must be included in a subdivision application in order for the application to be determined to contain the required elements for the purposes of the review required in 76-3-604(1);

(b) except as provided in 76-3-210, 76-3-509, or 76-3-609, require the subdivider to submit to the governing body an environmental assessment as prescribed in 76-3-603;

(c) establish procedures consistent with this chapter for the submission and review of subdivision applications and amended applications;

(d) prescribe the form and contents of preliminary plats and the documents to accompany final plats;

(e) provide for the identification of areas that, because of natural or human-caused hazards, are unsuitable for subdivision development and prohibit subdivisions in these areas unless the hazards can be eliminated or overcome by approved construction techniques;

(f) prohibit subdivisions for building purposes in areas located within the floodway of a flood of 100-year frequency, as defined by Title 76, chapter 5, or determined to be subject to flooding by the governing body;

(g) prescribe standards for:

(i) the design and arrangement of lots, streets, and roads;

(ii) grading and drainage;

(iii) subject to the provisions of 76-3-511, water supply and sewage and solid waste disposal that meet the:

(A) regulations adopted by the department of environmental quality under 76-4-104 for subdivisions that will create one or more parcels containing less than 20 acres; and

(B) standards provided in 76-3-604 and 76-3-622 for subdivisions that will create one or more

- parcels containing 20 acres or more and less than 160 acres; and
- (iv) the location and installation of public utilities;
 - (h) provide procedures for the administration of the park and open-space requirements of this chapter;
 - (i) provide for the review of subdivision applications by affected public utilities and those agencies of local, state, and federal government identified during the preapplication consultation conducted pursuant to subsection (1)(q) or those having a substantial interest in a proposed subdivision. A public utility or agency review may not delay the governing body's action on the application beyond the time limits specified in this chapter, and the failure of any agency to complete a review of an application may not be a basis for rejection of the application by the governing body.
 - (j) when a subdivision creates parcels with lot sizes averaging less than 5 acres, require the subdivider to:
 - (i) reserve all or a portion of the appropriation water rights owned by the owner of the land to be subdivided and transfer the water rights to a single entity for use by landowners within the subdivision who have a legal right to the water and reserve and sever any remaining surface water rights from the land;
 - (ii) if the land to be subdivided is subject to a contract or interest in a public or private entity formed to provide the use of a water right on the subdivision lots, establish a landowner's water use agreement administered through a single entity that specifies administration and the rights and responsibilities of landowners within the subdivision who have a legal right and access to the water; or
 - (iii) reserve and sever all surface water rights from the land;
 - (k) (i) except as provided in subsection (1)(k)(ii), require the subdivider to establish ditch easements in the subdivision that:
 - (A) are in locations of appropriate topographic characteristics and sufficient width to allow the physical placement and unobstructed maintenance of open ditches or belowground pipelines for the delivery of water for irrigation to persons and lands legally entitled to the water under an appropriated water right or permit of an irrigation district or other private or public entity formed to provide for the use of the water right on the subdivision lots;
 - (B) are a sufficient distance from the centerline of the ditch to allow for construction, repair, maintenance, and inspection of the ditch; and
 - (C) prohibit the placement of structures or the planting of vegetation other than grass within the ditch easement without the written permission of the ditch owner.
 - (ii) Establishment of easements pursuant to this subsection (1)(k) is not required if:
 - (A) the average lot size is 1 acre or less and the subdivider provides for disclosure, in a manner acceptable to the governing body, that adequately notifies potential buyers of lots that are classified as irrigated land and may continue to be assessed for irrigation water delivery even though the water may not be deliverable; or
 - (B) the water rights are removed or the process has been initiated to remove the water rights from the subdivided land through an appropriate legal or administrative process and if the removal or intended removal is denoted on the preliminary plat. If removal of water rights is not complete upon filing of the final plat, the subdivider shall provide written notification to prospective buyers of the intent to remove the water right and shall document that intent, when applicable, in agreements and legal documents for related sales transactions.
 - (l) require the subdivider, unless otherwise provided for under separate written agreement or filed easement, to file and record ditch easements for unobstructed use and maintenance of existing water delivery ditches, pipelines, and facilities in the subdivision that are necessary to convey water through the subdivision to lands adjacent to or beyond the subdivision boundaries in quantities and in a manner that are consistent with historic and legal rights;
 - (m) require the subdivider to describe, dimension, and show public utility easements in the subdivision on the final plat in their true and correct location. The public utility easements must be of sufficient width to allow the physical placement and unobstructed maintenance of public utility facilities for the provision of public utility services within the subdivision.
 - (n) establish whether the governing body, its authorized agent or agency, or both will hold public hearings;
 - (o) establish procedures describing how the governing body or its agent or agency will address information presented at the hearing or hearings held pursuant to 76-3-605 and 76-3-615;
 - (p) establish criteria that the governing body or reviewing authority will use to determine whether

a proposed method of disposition using the exemptions provided in 76-3-201 or 76-3-207 is an attempt to evade the requirements of this chapter. The regulations must provide for an appeals process to the governing body if the reviewing authority is not the governing body.

(q) establish a preapplication process that:

(i) ~~allows~~ requires a subdivider to meet with the agent or agency, other than the governing body, that is designated by the governing body to review subdivision applications prior to the subdivider submitting the application;

(ii) requires, for informational purposes only, identification of the state laws, local regulations, and growth policy provisions, if a growth policy has been adopted, that may apply to the subdivision review process;

(iii) requires a list to be made available to the subdivider of the public utilities, those agencies of local, state, and federal government, and any other entities that may be contacted for comment on the subdivision application and the timeframes that the public utilities, agencies, and other entities are given to respond. If, during the review of the application, the agent or agency designated by the governing body contacts a public utility, agency, or other entity that was not included on the list originally made available to the subdivider, the agent or agency shall notify the subdivider of the contact and the timeframe for response.

(iv) requires that a preapplication meeting take place no more than 30 days from the date that the agent or agency receives a written request for a preapplication meeting from the subdivider; and

(v) establishes a time limit after a preapplication meeting by which an application must be submitted as provided in 76-3-604.

(2) In order to accomplish the purposes described in 76-3-501, the subdivision regulations adopted under 76-3-509 and this section may include provisions that are consistent with this section that promote cluster development.

(3) The governing body may establish deadlines for submittal of subdivision applications. ""

Insert: "NEW SECTION. Section 8. Definitions. As used in [sections 8 through 11], unless the context requires otherwise, the following definitions apply:

(1) "Biodiesel" has the meaning provided in 15-70-301.

(2) "Biodiesel production facility" means improvements and personal property used for the production and onsite storage of biodiesel.

(3) "Biogas" means methane gas produced through controlled biochemical processes in which bacteria digest animal, municipal, or other organic wastes in an oxygen-free environment. The term includes naturally occurring methane gas formed underground in landfills.

(4) "Biogas production facility" means improvements and personal property used for the production of biogas and the generation of electricity at the facility.

(5) "Biomass" means any renewable organic matter, including dedicated energy crops and trees, agricultural food and feed crops, agricultural crop wastes and residues, wood wastes and residues, aquatic plants, animal wastes, municipal wastes, and other organic waste materials.

(6) "Biomass gasification" means a technology that uses a thermochemical process to convert biomass into a low-Btu or medium-Btu gas for the purpose of producing electricity, methane gas, transportation fuels, or chemicals. The technology includes the pretreatment of biomass feedstock involving drying, pulverizing, and screening.

(7) "Biomass gasification facility" means improvements and personal property used for the production of fuel or chemicals and the generation of electricity from biomass at the facility.

(8) "Clean advanced coal research and development equipment" means equipment used primarily for research and development of emerging methods for pollution control, carbon capture, and carbon sequestration. The term includes equipment used for research and development of effective and efficient removal of various pollutants and the capture, storage, transportation, compression, and injection of carbon dioxide from coal combustion utility and industrial facilities and advanced coal conversion facilities.

(9) "Coal gasification" means a process that converts coal into a synthesis gas composed of carbon monoxide, hydrogen, and other gases. The coal gasification process includes the reaction of coal feedstock, prepared in either a dry or slurried form, with steam and oxygen at high temperature and pressure in a reducing atmosphere. The synthesis gas is then used to produce electricity, liquid fuels, methane gas, or chemicals.

(10) "Coal gasification facility" means improvements and personal property used for coal

gasification that is used for the production of fuel or chemicals or the generation of electricity, or any combination of those things, at the facility. The term includes a coal-to-liquid facility or an integrated gasification combined cycle facility.

(11) (a) "Coal-to-liquid facility" means improvements and personal property used for the production of synthetic liquid fuels from coal. The term includes a facility that may use the Fischer-Tropsch process, or other processes, to convert synthesis gas produced by coal gasification into liquid fuel.

(b) For purposes of subsection (11)(a), "Fisher-Tropsch process" means the synthesis of hydrocarbons and, to a lesser extent, of aliphatic oxygenated compounds by the catalytic hydrogenation of carbon monoxide.

(12) "Commencement of construction" means initiation of onsite fabrication, erection, or installation of, but not limited to, the following:

- (a) building supports or foundations;
- (b) laying of underground pipework; or
- (c) construction of storage structures.

(13) "Ethanol" means nominally anhydrous ethyl alcohol that has been denatured as specified in 27 CFR, parts 20 and 21, and that meets the standards for ethanol adopted pursuant to 82-15-103.

(14) "Ethanol production facility" means improvements and personal property used for the production and onsite storage of ethanol.

(15) "Geothermal facility" means improvements and personal property used for the production of electricity from geothermal sources.

(16) "Integrated gasification combined cycle facility" means improvements and personal property of an electrical generation facility that uses a coal gasification process and routes synthesis gas to a combustion turbine to generate electricity and the heat from the turbine drives a steam turbine to produce more electricity. The facility may also use incidental amounts of natural gas or other fuels in the combustion turbine.

(17) "Renewable energy" includes the following:

- (a) solar energy;
- (b) wind energy;
- (c) geothermal energy;
- (d) energy from the conversion of biomass;
- (e) energy from biogas;
- (f) energy from fuel cells that do not require a petroleum-based fuel; and
- (g) energy from waste heat.

(18) (a) "Renewable energy manufacturing facility" means improvements and personal property used by a facility with its principal business being the manufacturing of material, component parts, systems, or similar equipment for use in facilities that produce renewable energy or that convert renewable energy into forms of energy useful to people, including electricity. The term includes equipment used for manufacturing of electric motor vehicles or hybrid electric motor vehicles.

(b) For purposes of subsection (18)(a), "principal business" means a renewable energy manufacturing facility with annual gross receipts from the sale of renewable energy component parts and systems equal to at least 50% of the facility's total gross sales for the year.

(19) "Renewable energy research and development equipment" means equipment used primarily for research and development of the efficient use of renewable energy sources. The term includes equipment used for research and development of electric motor vehicles or hybrid electric motor vehicles."

Insert: "NEW SECTION. Section 9. Energy production or development — tax abatement — eligibility. (1) A facility listed in subsection (3), clean advanced coal research and development equipment, and renewable energy research and development equipment may qualify for an abatement of property tax liability pursuant to [section 10].

(2) (a) If the abatement is granted, the qualifying facility or equipment must be assessed at 50% of its taxable value for the qualifying period.

(b) The abatement applies to all mills levied against the qualifying facility or equipment.

(3) Subject to subsection (4), the following facilities or property may qualify for the abatement allowed under [sections 8 through 11]:

- (a) biodiesel production facilities;
- (b) biogas production facilities;

- (c) biomass gasification facilities;
 - (d) coal gasification facilities that sequester at least 65% of the carbon dioxide from the coal gasification process;
 - (e) ethanol production facilities;

"15-30-112. Exemptions. (1) Except as provided in subsection (6), in the case of an individual, the exemptions provided by subsections (2) through (5) must be allowed as deductions in computing taxable income.

(2) (a) An exemption of ~~\$1,900~~ \$2,560 is allowed for all taxpayers.

(b) An additional exemption of ~~\$1,900~~ \$2,560 is allowed for the spouse of the taxpayer if a separate return is made by the taxpayer and if the spouse, for the calendar year in which the tax year of the taxpayer begins, does not have gross income and is not the dependent of another

taxpayer.

(3) (a) An additional exemption of ~~\$1,900~~ \$2,560 is allowed for the taxpayer if the taxpayer has attained the age of 65 before the close of the taxpayer's tax year.

(b) An additional exemption of ~~\$1,900~~ \$2,560 is allowed for the spouse of the taxpayer if a separate return is made by the taxpayer and if the spouse has attained the age of 65 before the close of the tax year and, for the calendar year in which the tax year of the taxpayer begins, does not have gross income and is not the dependent of another taxpayer.

(4) (a) An additional exemption of ~~\$1,900~~ \$2,560 is allowed for the taxpayer if the taxpayer is blind at the close of the taxpayer's tax year.

(b) An additional exemption of ~~\$1,900~~ \$2,560 is allowed for the spouse of the taxpayer if a separate return is made by the taxpayer and if the spouse is blind and, for the calendar year in which the tax year of the taxpayer begins, does not have gross income and is not the dependent of another taxpayer. For the purposes of this subsection (4)(b), the determination of whether the spouse is blind must be made as of the close of the tax year of the taxpayer, except that if the spouse dies during the tax year, the determination must be made as of the time of death.

(c) For purposes of this subsection (4), an individual is blind only if the person's central visual acuity does not exceed 20/200 in the better eye with correcting lenses or if visual acuity is greater than 20/200 but is accompanied by a limitation in the fields of vision to an extent that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

(5) (a) An exemption of ~~\$1,900~~ \$2,560 is allowed for each dependent:

(i) whose gross income for the calendar year in which the tax year of the taxpayer begins is less than \$800; or

(ii) who is a child of the taxpayer and who:

(A) has not attained the age of 19 years at the close of the calendar year in which the tax year of the taxpayer begins; or

(B) is a student.

(b) An exemption is not allowed under this subsection for a dependent who has made a joint return with the dependent's spouse for the tax year beginning in the calendar year in which the tax year of the taxpayer begins.

(c) For purposes of subsection (5)(a)(ii), the term "child" means an individual who is a son, stepson, daughter, or stepdaughter of the taxpayer.

(d) For purposes of subsection (5)(a)(ii)(B), the term "student" means an individual who, during each of 5 calendar months during the calendar year in which the tax year of the taxpayer begins:

(i) is a full-time student at an educational institution; or

(ii) is pursuing a full-time course of institutional on-farm training under the supervision of an accredited agent of an educational institution or of a state or political subdivision of a state. For purposes of this subsection (5)(d)(ii), the term "educational institution" means only an educational institution that normally maintains a regular faculty and curriculum and normally has a regularly organized body of students in attendance at the place where its educational activities are carried on.

(6) The department, by November 1 of each year, shall multiply all the exemptions provided in this section by the inflation factor for that tax year and round the product to the nearest \$10. The resulting adjusted exemptions are effective for that tax year and must be used in calculating the tax imposed in 15-30-103."

Insert: "Section 4. Section 15-30-142, MCA, is amended to read:

"15-30-142. Returns and payment of tax — penalty and interest — refunds — credits. (1) For both resident and nonresident taxpayers, each single individual and each married individual not filing a joint return with a spouse and having a gross income for the tax year of more than \$3,560, as adjusted under the provisions of subsection (6), and married individuals not filing separate returns and having a combined gross income for the tax year of more than \$7,120, as adjusted under the provisions of subsection (6), are liable for a return to be filed on forms and according to rules that the department may prescribe. The gross income amounts referred to in the preceding sentence must be increased by ~~\$1,900~~ \$2,560, as adjusted under the provisions of 15-30-112(6), for each additional personal exemption allowance that the taxpayer is entitled to claim for the taxpayer and the taxpayer's spouse under 15-30-112(3) and (4).

(2) In accordance with instructions set forth by the department, each taxpayer who is married and living with husband or wife and is required to file a return may, at the taxpayer's option, file a joint return with husband or wife even though one of the spouses has neither gross income nor

deductions. If a joint return is made, the tax must be computed on the aggregate taxable income and the liability with respect to the tax is joint and several. If a joint return has been filed for a tax year, the spouses may not file separate returns after the time for filing the return of either has expired unless the department consents.

(3) If a taxpayer is unable to make the taxpayer's own return, the return must be made by an authorized agent or by a guardian or other person charged with the care of the person or property of the taxpayer.

(4) All taxpayers, including but not limited to those subject to the provisions of 15-30-202 and 15-30-241, shall compute the amount of income tax payable and shall, on or before the date required by this chapter for filing a return, pay to the department any balance of income tax remaining unpaid after crediting the amount withheld, as provided by 15-30-202, and any payment made by reason of an estimated tax return provided for in 15-30-241. However, the tax computed must be greater by \$1 than the amount withheld and paid by estimated return as provided in this chapter. If the amount of tax withheld and the payment of estimated tax exceed by more than \$1 the amount of income tax as computed, the taxpayer is entitled to a refund of the excess.

(5) If the department determines that the amount of tax due is greater than the amount of tax computed by the taxpayer on the return, the department shall mail a notice to the taxpayer as provided in 15-30-323 of the additional tax proposed to be assessed, including penalty and interest as provided in 15-1-216.

(6) By November 1 of each year, the department shall multiply the minimum amount of gross income necessitating the filing of a return by the inflation factor for the tax year. These adjusted amounts are effective for that tax year, and persons who have gross incomes less than these adjusted amounts are not required to file a return.

(7) Individual income tax forms distributed by the department for each tax year must contain instructions and tables based on the adjusted base year structure for that tax year."

(2) An appropriation may be encumbered by a written interagency or intra-agency agreement with the department for the alteration, repair, maintenance, or renovation of a building pursuant to the provisions of Title 18, chapter 2. ~~If~~ Except as provided in 53-6-1201(4), if the appropriation is not encumbered by a valid obligation at the end of the next fiscal year, the appropriation reverts to the fund from which it was originally appropriated."

"17-7-304. Disposal of unexpended appropriations. (1) All money appropriated for any specific purpose except that appropriated for the university system units listed in subsection (2) [or state money appropriated for the state children's health insurance program provided for in Title 53, chapter 4, part 10,] and except as provided in subsection (4) ~~and 53-6-1201(4)~~ must, after the expiration of the time for which appropriated, revert to the several funds and accounts from which originally appropriated. However, any unexpended balance in any specific appropriation may be used for the years for which the appropriation was made or may be used to fund the provisions of 2-18-1203 through 2-18-1205 and 19-2-706 in the succeeding year.

(2) Except as provided in 17-2-108 and subsection (3) of this section, all money appropriated for the university of Montana campuses at Missoula, Butte, Dillon, and Helena and the Montana state university campuses at Bozeman, Billings, Havre, and Great Falls, the agricultural experiment station with central offices at Bozeman, the forest and conservation experiment station with central offices at Missoula, the cooperative extension service with central offices at Bozeman, and the bureau of mines and geology with central offices in Butte must, after the expiration of the time for which appropriated, revert to an account held by the board of regents. The board of regents is authorized to maintain a fund balance. There is a statutory appropriation, as provided in 17-7-502, to use the funds held in this account in accordance with a long-term plan for major and deferred maintenance expenditures and equipment or fixed assets purchases prepared by the affected university system units and approved by the board of regents. The affected university system units may, with the approval of the board of regents, modify the long-term plan at any time to address changing needs and priorities. The board of regents shall communicate the plan to each legislature, to the finance committee when requested by the committee, and to the office of budget and program planning.

(3) Subsection (2) does not apply to reversions that are the result of a reduction in spending directed by the governor pursuant to 17-7-140. Any amount that is a result of a reduction in spending directed by the governor must revert to the fund or account from which it was originally

appropriated.

(4) (a) Subject to subsection (4)(b), after the end of a fiscal year, 30% of the money appropriated to an agency for that year by the general appropriations act for personal services, operating expenses, and equipment, by fund type, and remaining unexpended and unencumbered at the end of the year may be reappropriated to be spent during the following 2 years for any purpose that is consistent with the goals and objectives of the agency. The dollar amount of the 30% amount that may be carried forward and spent must be determined by the office of budget and program planning.

(b) (i) Any portion of the 30% of the unexpended and unencumbered money referred to in subsection (4)(a) that was appropriated to a legislative branch entity may be deposited in the account established in 5-11-407.

(ii) After the end of a biennium, any portion of the unexpended and unencumbered money appropriated for the operation of the preceding legislature in a separate appropriation act may be deposited in the account established in 5-11-407. The approving authority shall determine the portion of the unexpended and unencumbered money that is deposited in the account. (Bracketed language terminates on occurrence of contingency—sec. 7, Ch. 565, L. 2005.)"

Insert: "Section 4. Section 53-6-1201, MCA, is amended to read:

"53-6-1201. Special revenue fund — health and medicaid initiatives. (1) There is a health and medicaid initiatives account in the state special revenue fund established by 17-2-102. This account is to be administered by the department of public health and human services.

(2) There must be deposited in the account:

(a) money from cigarette taxes deposited under 16-11-119(1)(c);

(b) money from taxes on tobacco products other than cigarettes deposited under 16-11-119(3)(b); and

(c) any interest and income earned on the account.

(3) This account may be used only to provide funding for:

(a) the state funds necessary to take full advantage of available federal matching funds in order to maximize enrollment of eligible children under the children's health insurance program, provided for under Title 53, chapter 4, part 10, and to provide outreach to the eligible children. The increased revenue in this account is intended to increase enrollment rates for eligible children in the program and not to be used to support existing levels of enrollment based upon appropriations for the biennium ending June 30, 2005.

(b) a new need-based prescription drug program established by the legislature for children, seniors, chronically ill, and disabled persons that does not supplant similar services provided under any existing program;

(c) increased medicaid services and medicaid provider rates. The increased revenue is intended to increase medicaid services and medicaid provider rates and not to supplant the general fund in the trended traditional level of appropriation for medicaid services and medicaid provider rates.

(d) an offset to loss of revenue to the general fund as a result of new tax credits;

(e) to fund new programs to assist eligible small employers with the costs of providing health insurance benefits to eligible employees;

(f) the cost of administering the tax credit, the purchasing pool, and the premium incentive payments and premium assistance payments as provided in Title 33, chapter 22, part 20; and

(g) to provide a state match for the medicaid program for premium incentive payments or premium assistance payments to the extent that a waiver is granted by federal law as provided in 53-2-216.

(4) Money appropriated but not expended for the prescription drug program described in subsection (3)(b) must be transferred annually to the older Montanans trust fund provided for in [section 1].

~~(4)(5) (a) Except for \$1 million appropriated for the startup costs of 53-6-1004 and 53-6-1005, the money appropriated for fiscal year 2006 for the programs in subsections (3)(b) and (3)(d) through (3)(g) may not be expended until the office of budget and program planning has certified that \$25 million has been deposited in the account provided for in this section or December 1, 2005, whichever occurs earlier.~~

(b)(a) On or before July 1, the budget director shall calculate a balance required to sustain each program in subsection (3) for each fiscal year of the biennium. If the budget director certifies that the reserve balance will be sufficient, then the agencies may expend the revenue for the programs as appropriated. If the budget director determines that the reserve balance of the

revenue will not support the level of appropriation, the budget director shall notify each agency. Upon receipt of the notification, the agency shall adjust the operating budget for the program to reflect the available revenue as determined by the budget director.

~~(e)(b)~~ Until the programs or credits described in subsections (3)(b) and (3)(d) through (3)(g) are established, the funding must be used exclusively for the purposes described in subsections (3)(a) and (3)(c).

~~(5)(6)~~ The phrase "trended traditional level of appropriation", as used in subsection (3)(c), means the appropriation amounts, including supplemental appropriations, as those amounts were set based on eligibility standards, services authorized, and payment amount during the past five biennial budgets.

~~(6)(7)~~ The department of public health and human services may adopt rules to implement this section.""

The difference is the reimbursable amount for each local government and tax increment financing district.

(2) The department shall distribute the reimbursement to local governments with the entitlement distributions for fiscal year 2009 under 15-1-121(6). Local government reimbursements for subsequent years are made pursuant to the entitlement share recomputation as provided in 15-1-121(6)."

"15-1-121. Entitlement share payment — appropriation. (1) As described in 15-1-120(3), each local government is entitled to an annual amount that is the replacement for revenue received by local governments for diminishment of property tax base and various earmarked fees and other revenue that, pursuant to Chapter 574, Laws of 2001, amended by section 4, Chapter 13, Special Laws of August 2002, and later enactments, was consolidated to provide aggregation of certain reimbursements, fees, tax collections, and other revenue in the state treasury with each local government's share. The reimbursement under this section is provided by direct payment from the state treasury rather than the ad hoc system that offset certain state payments with local government collections due the state and reimbursements made by percentage splits, with a local government remitting a portion of collections to the state, retaining a portion, and in some cases sending a portion to other local governments. The amount calculated pursuant to this subsection, as adjusted pursuant to subsection (3)(a)(i), is each local government's base entitlement share. The department shall estimate the total amount of revenue that each local government received from the following sources for the fiscal year ending June 30, 2001:

(a) personal property tax reimbursements pursuant to sections 167(1) through (5) and 169(6), Chapter 584, Laws of 1999;

(b) vehicle, boat, and aircraft taxes and fees pursuant to:

(i) Title 23, chapter 2, part 5;

(ii) Title 23, chapter 2, part 6;

(iv) 61-3-317;

(v) 61-3-321;

(vi) Title 61, chapter 3, part 5, except for 61-3-509(3), as that subsection read prior to the amendment of 61-3-509 in 2001;

(vii) Title 61, chapter 3, part 7;

(viii) 5% of the fees collected under 61-10-122;

(ix) 61-10-130;

(x) 61-10-148; and

(xi) 67-3-205;

(c) gaming revenue pursuant to Title 23, chapter 5, part 6, except for the permit fee in 23-5-612(2)(a);

- (d) district court fees pursuant to:
- (i) 25-1-201, except those fees in 25-1-201(1)(d), (1)(g), and (1)(j);
 - (ii) 25-1-202;
 - (iii) 25-1-1103;
 - (iv) 25-9-506; and
 - (v) 27-9-103;

- (o) department of natural resources and conservation payments in lieu of taxes pursuant to Title 77, chapter 1, part 5.

(2) (a) From the amounts estimated in subsection (1) for each county government, the department shall deduct fiscal year 2001 county government expenditures for district courts, less reimbursements for district court expenses, and fiscal year 2001 county government expenditures for public welfare programs to be assumed by the state in fiscal year 2002.

~~(b)~~(2) The total amount estimated pursuant to subsections (1) and (2)(a) received in fiscal year 2007 as an entitlement share payment under this section is the base component for the fiscal year 2008 distribution, and in each subsequent year the prior year entitlement share payment, including any reimbursement payments received pursuant to subsection (6), is each local government's base year component. The sum of all local governments' base year components is the base fiscal year entitlement share pool. For the purpose of calculating the sum of all local governments' base year components, the base year component for a local government may not be less than zero.

(3) (a) The base fiscal year entitlement share pool must be increased annually by a growth rate as provided for in this subsection (3). The amount determined through the application of annual growth rates is the entitlement share pool for each fiscal year. By October 1 of each even-numbered year, the department shall calculate the growth rate of the entitlement share pool for each year of the next biennium in the following manner:

~~(i) Before applying the growth rate for fiscal year 2007 to determine the fiscal year 2007 entitlement share payments, the department shall subtract from the fiscal year 2006 entitlement share payments the following amounts:~~

~~(ii)(i)~~ The department shall calculate the average annual growth rate of the Montana gross state product, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

- (A) the last 4 calendar years for which the information has been published; and
- (B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection ~~(3)(a)(ii)(A)~~ ~~(3)(a)(i)(A)~~.

~~(iii)(ii)~~ The department shall calculate the average annual growth rate of Montana personal

income, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

(A) the last 4 calendar years for which the information has been published; and
 (B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection ~~(3)(a)(iii)(A)~~ (3)(a)(ii)(A).

(b) (i) The entitlement share pool growth rate for ~~the first each~~ year of the biennium must be the following percentage of the average of the growth rates calculated in subsections ~~(3)(a)(ii)(B)~~ (3)(a)(i)(B) and ~~(3)(a)(iii)(B)~~ (3)(a)(ii)(B):

~~(A)(i)~~ for counties, 54%;

~~(B)(ii)~~ for consolidated local governments, 62%; and

~~(C)(iii)~~ for incorporated cities and towns, 70%.

(ii) ~~The entitlement share pool growth rate for the second year of the biennium must be the following percentage of the average of the growth rates calculated in subsections (3)(a)(ii)(A) and (3)(a)(iii)(A):~~

(A) for counties, 54%;

(B) for consolidated local governments, 62%; and

(C) for incorporated cities and towns, 70%.

(4) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection ~~(6)~~ (7). ~~For purposes of calculating the base year component for a county or consolidated local government, the department shall include the revenue listed in subsection (1) for all special districts within the county or consolidated local government. The county or consolidated local government is responsible for making an allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources listed in subsection (1) for which reimbursement is provided in this section.~~

(5) (a) The entitlement share pools calculated in this section and the ~~block grants funding~~ provided for in subsection ~~(6)~~ (7) are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments. ~~Each local government is entitled to a pro rata share of each year's entitlement share pool based on the local government's base component in relation to the base year entitlement share pool. The distributions must be made on a quarterly basis.~~

(b) (i) The growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. ~~For the purposes of subsection (5)(b)(ii)(A), a county with a negative base year component has a base year component of zero. The growth factor in the entitlement share must be calculated separately for:~~

(A) counties;

(B) consolidated local governments; and

(C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the ~~base prior fiscal~~ year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the ~~base prior fiscal~~ year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as

follows:

- (A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the ~~base~~ prior fiscal year entitlement share pool for all incorporated cities and towns; and
- (B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.
- (v) In each fiscal year, the amount of the entitlement share pool ~~not represented by~~ before the growth amount ~~or adjustments are made under subsection (6) are applied is~~ to be distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

(6) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this section, the department shall determine the reimbursement amount as provided in the enactment and add the appropriate amount to the entitlement share distribution under this section. The total entitlement share distributions in a fiscal year, including distributions made pursuant to this subsection, equal the local fiscal year entitlement share pool. The ratio of each local government's distribution from the entitlement share pool must be recomputed to determine each local government's ratio to be used in the subsequent year's distribution determination under subsections (5)(b)(ii)(A), (5)(b)(iii)(A), and (5)(b)(iv)(A).

~~(6)(7)~~ (a) If a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any ~~block grant funding~~. If a tax increment financing district referred to in subsection ~~(6)(b)~~ (7)(b) terminates, then the ~~block grant funding for the district provided for in subsection (6)(b)~~ (7)(b) terminates.

(b) One-half of the payments provided for in this subsection ~~(6)(b)~~ (7)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection ~~(6)(a)~~ (7)(a), the entitlement share for tax increment financing districts is as follows:

Cascade	Great Falls - downtown	\$468,966
Deer Lodge	TIF District 1	3,148
Deer Lodge	TIF District 2	3,126
Flathead	Kalispell - District 1	758,359

Yellowstone	Billings	436,815

~~(7)(8)~~ The estimated ~~base~~ fiscal year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from tax increment financing districts, from countywide transportation block grants, or from countywide retirement block grants.

~~(8) (a) If revenue that is included in the sources listed in subsections (1)(b) through (1)(o) is significantly reduced, except through legislative action, the department shall deduct the amount of revenue loss from the entitlement share pool beginning in the succeeding fiscal year and the department shall work with local governments to propose legislation to adjust the entitlement share pool to reflect an allocation of the loss of revenue.~~

(b) For the purposes of subsection (8)(a), a significant reduction is a loss that causes the amount of revenue received in the current year to be less than 95% of the amount of revenue received in the base year.

(9) A three-fifths vote of each house is required to reduce the amount of the entitlement share calculated pursuant to subsections (1) through (3).

(10) When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

(11) A local government may appeal the department's estimation of the base ~~year~~ component, the entitlement share pool growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

(12) A payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1."
