1. Page B-5.

Following: line 14

Insert: "f. Study of Veterans' Long-Term Health Care Needs (Restricted/Biennial/OTO)  
50,000" [state special revenue from cigarette taxes]

2. Page B-13, line 16.

Following: line 16

Insert: "Funding in Study of Veterans' Long-Term Health Care Needs may be used by the department only to perform an analysis related to veterans' long-term care needs. The funds must be used to determine demographics of the Montana veterans' population, including the number and age of veterans in each county and the type of long-term care needs of the population. The long-term care assessment for veterans must include evaluation of the need for nursing home, domiciliary, and Alzheimer services as well as various types of community and in-home care that are needed. The study must also evaluate existing veterans' home services and configuration of those services with respect to the needs identified. The department shall provide the results of the study to the legislative finance committee by September 1, 2006."

Explanation: This amendment appropriates \$50,000 of state special cigarette tax revenue allocated to veterans' services for a study of long-term care needs of Montana veterans' and requires that the Legislative Finance Committee receive the study results in time to be included in legislative staff analysis of the executive budget request.

**HB 2** (Fifty-ninth Legislative Day - Second Reading - House) - Representative Caferro moved HB 2, second reading copy, be further amended as follows:

1. Page B-2, line 9.

Strike: "19,197,505" [state special fund FY07]

Insert: "17,397,505" [state special fund FY07]

Strike: "Eliminate Asset Test"

Strike: line 21 in its entirety [general fund and federal funds FY06]

Insert: "1,876,316 4,529,679" [state special and federal funds FY06]

Explanation: This amendment funds the state match for raising the asset limit for children's Medicaid eligibility (HB 552) from I-149 state special revenue authority instead of from general fund and adjusts the funding in HB 2 to correspond to the most recent fiscal note for HB 552. The \$1,876,316 million in state special revenue authority to support HB 552 is removed from funding appropriated for small business tax credits and health insurance premium assistance (HB 667). The net change due to this amendment is a \$2.2 million general fund reduction and a \$781,487 reduction in federal matching funds.

Insert: "1,071,324 1,068,731" [general fund FY06 and FY07]
2. Page E-15.  
Following: line 2  
Insert: "Forest and Conservation Experiment Station includes \$200,000 in general fund money for the forest management urban/wildland interface program, which must be matched with \$114,000 in nonstate funds identified by the board of regents. Matched funds may include federal funding revenue, private funding revenue, and other nonstate university funds. The funding match may include in-kind revenue only if that revenue is equipment, cost reductions offered for purchased equipment, or space to house equipment. The office of the commissioner of higher education shall certify to the office of budget and program planning that an allowable funding match has been committed from an eligible revenue source, as evidenced by a commitment letter from that funding source."  
Explanation - This amendment adds the Wildland/Urban Interface Forest Management position (new proposal) associated with the Forest and Conservation Experiment Station at the University of Montana, Missoula, increasing general fund by \$100,000 in FY 06 and by \$100,000 in FY 07 for a biennial total of \$200,000.  
This general fund appropriation would come from the increased general fund projections in HJR 2 (as of April 5th) which increases general fund revenue by \$9 million over the biennium (due primarily to higher oil and gas prices).

Insert: "4,783,103 4,871,848" [general fund FY06 and FY07]

3. Page E-15.

Following: line 2.

Insert: "Agriculture Experiment Station includes \$115,624 in general fund money for integrated weed management and biotechnology (1.5 FTE), which must be matched with \$79,983 in nonstate funds identified by the board of regents, and Extension Service includes \$196,800 in general fund money for an extension cropping specialist and livestock specialist (2 FTE), which must be matched with \$49,200 in nonstate funds identified by the board of regents. Matched funds for these items may include federal funding revenue, private funding revenue, and other nonstate university funds. The funding match may include in-kind revenue only if that revenue is equipment, cost reductions offered for purchased equipment, or space to house equipment. The office of the commissioner of higher education shall certify to the office of budget and program planning that an allowable funding match has been committed from an eligible revenue source, as evidenced by a commitment letter from that funding source."

Explanation - The total general fund increase in HB 2 for all of the positions above would be \$145,583 in FY 06 and \$166,841 in FY 07, for a biennial total of \$312,424.

These new positions at the Agriculture Experiment Station and the Extension Service in the Montana University System would be funded with no net fiscal impact on HB 2 due to the state special revenue savings generated from Senate Bill No. 320 (currently on Second Reading in the Second House), which overrides a court ordered EIS for concentrated animal feed operations and eliminates \$312,424 state special revenue fund in the 2007 biennium budget (from water quality fees fund 02278).

The appropriation of up to \$500,000 in capitol land grant revenue to the department of administration for the capitol annex or alternatives feasibility study is the last priority for use of these funds during the 2007 biennium and is dependent upon the availability of revenue. To the extent that capitol land grant revenue is not sufficient to fund this project, the balance of the appropriation may come from reversions in the long-range building program account made during the 2006-2007 biennium. If necessary, this project may be phased in as these funds become available."

"20-5-323. Tuition and transportation rates. (1) Except as provided in subsections (2) through (5), whenever a child has approval to attend a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the rate of tuition charged for a Montana resident student may not exceed 20% of the per-ANB maximum rate established in 20-9-306 for the year of attendance.

(2) The tuition for a child with a disability must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils.

(3) The tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district, person, or entity responsible for the tuition payments shall approve an agreement with the district of attendance for the tuition cost;

(b) for a Montana resident student, 80% of the maximum per-ANB rate established in ~~20-9-306(10)~~ 20-9-306, received in the year for which the tuition charges are calculated must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this section may not exceed \$2,500 per ANB.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;

(c) an order issued under Title 40, chapter 4, part 2; or

(d) out-of-state placement by a state agency.

(5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.

(6) The amount, if any, charged for transportation may not exceed the lesser of the average transportation cost for each student in the child's district of residence or 25 cents a mile. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October 1 enrollment for the preceding fiscal year."

- (a) (i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately as a separate budget unit for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;
  - (ii) a school of the district is located more than 20 miles from any other school of the district and incorporated territory is not involved in the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;
  - (iii) the superintendent of public instruction approves an application not to aggregate when conditions exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, or when any other condition exists that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(1) Prior to June 1, the district shall estimate the elementary or high school enrollment to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

(2) No later than June 1, the district shall submit its application for an unusual enrollment increase by elementary or high school level to the superintendent of public instruction. The application must include:

(a) the enrollment for the current school fiscal year;

(b) the average number belonging used to calculate the basic entitlement and total per-ANB entitlement for the current school fiscal year;

(d) the estimated enrollment, including the factual information on which the estimate is based, as provided in subsection (1); and

(e) any other information or data that may be requested by the superintendent of public instruction.

(3) The superintendent of public instruction shall immediately review all the factors of the application and shall approve or disapprove the application or adjust the estimated average number belonging for the ensuing ANB calculation period. - (4) The superintendent of public instruction shall notify the district of the decision by the fourth Monday in June.
- (5) Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the increase of the average number belonging used to establish the basic entitlement and total per-ANB entitlement for the ensuing ANB calculation period is determined using the difference between the enrollment for the ensuing school fiscal year and 106% of the current enrollment used to calculate the budgeted ANB. The amount determined is the maximum allowable increase added to the average number belonging for the purpose of establishing the ensuing year's basic entitlement and total per-ANB entitlement.
- (6) (a) Any entitlement increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year.
- (b) If the actual enrollment is less than ~~the average number belonging used for BASE funding program and entitlement calculations~~ the enrollment used to determine budgeted ANB, the superintendent of public instruction shall revise the total per-ANB entitlement and basic entitlement calculations, as provided in subsection (5), using the actual ~~average number belonging~~ enrollment in place of the estimated enrollment.

- (3) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district, cooperative, or joint board for special education services formed under 20-3-361 prior to July 1, 1992, using the following factors:
- the district ANB student count as established pursuant to 20-9-311 and 20-9-313;
  - a per-ANB amount for the special education instructional block grant;
  - a per-ANB amount for the special education-related services block grant;
  - an amount for cooperatives or joint boards meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration; and

To ensure that the total of reimbursements to all districts does not exceed 25% of the total special education allocation limit established in subsection ~~(2)(a)(iii)~~ (4)(a)(iii), reimbursement must be made to districts for amounts that exceed a threshold level calculated annually by the office of public instruction. The threshold level is calculated as a percentage amount above the sum of the district's block grants plus the required district match.

(iv) Of the amount distributed under subsection ~~(2)(a)(iv)~~ (4)(a)(iv), three-fifths must be distributed based on the ANB count of the school districts that are members of the special education cooperative or joint board and two-fifths must be distributed based on distances, population density, and the number of itinerant personnel under rules adopted by the superintendent of public instruction.

"15-70-522. Tax incentive for production of alcohol — written plan required — ~~reservation of incentives~~ — rules. (1) (a) If the alcohol was produced in Montana from Montana agricultural products, including Montana wood or wood products, or if the alcohol was produced from non-Montana agricultural products when Montana products are not available, there is a tax incentive payable to alcohol distributors for distilling alcohol that:

(i) is to be blended with gasoline for sale as gasohol in Montana;

(ii) was exported from Montana to be blended with gasoline for sale as gasohol; or

(iii) is to be used in the production of ethyl butyl ether for use in reformulated gasoline.

(b) Payment must be made by the department out of the amount collected under 15-70-204.

(2) Except as provided in subsections (3) and (4), the tax incentive on each gallon of alcohol distilled in accordance with subsection (1) is ~~30~~ 20 cents a gallon for each gallon that is 100% produced from Montana products, with the amount of the tax incentive for each gallon reduced proportionately, based upon the amount of agricultural or wood products not produced in Montana that is used in the production of the alcohol. ~~Beginning July 1, 2010, there is no tax incentive. The tax incentive is available to a facility for the first 6 years from the date that the facility begins production.~~

(3) Regardless of the alcohol tax incentive provided in subsection (2), the total payments made for the incentive under this part may not exceed \$6 million in any consecutive 12-month period.

(4) (a) An alcohol distributor may not receive tax incentive payments under subsection (2) that exceed ~~\$3~~ \$2 million in any consecutive 12-month period. Subject to subsections (6) and (7), an alcohol distributor may receive tax incentive payments commencing the first quarter after a facility

begins production. The distributor shall report its production to the department pursuant to 15-70-205.

(b) The distributor's report must include:

- (i) the total number of gallons produced for the month;
- (ii) the total amount of products purchased for the production of alcohol;
- (iii) the percentage of the total amount of products purchased that are Montana products; and
- (iv) other information that the department determines is necessary.

(5) An alcohol distributor may not receive tax incentive payments under subsection (2) unless the distributor has provided a written business plan to the department of transportation at least 24 months before the distributor's anticipated application for collection of the tax incentives ~~and has complied with the schedule provided for in subsection (6)~~. The plan must contain the following information:

- (a) the source or sources of financing for the acquisition of the plant, land, and equipment used for the production of alcohol for use in gasohol;
- (b) the anticipated source of agricultural products used in the production of alcohol for use in gasohol; and
- (c) the anticipated time, quantity, and duration of production of alcohol for use in gasohol.

~~(6) An applicant that has provided the department with a written business plan shall meet the following schedule to be able to receive alcohol tax incentive payments:~~

- (a) start building construction or remodeling within 24 months of the date on which the department received the business plan;
- (b) complete 50% of construction or remodeling of a production facility within 36 months of the date on which the business plan was received; and
- (c) complete 100% of construction or remodeling of a production facility and be in production of alcohol for use in gasohol for distribution within 48 months of the date on which the business plan was received.

(7) If the applicant does not adhere to the schedule in subsection (6), the applicant loses its priority for receiving incentive payments.

(8) (a) A plant shall apply for the incentive payment by submitting an application to the department when the plant has proof of commitment from lenders to finance the plant. Subject to subsection (6)(b), the department of transportation shall respond to the applicant with approval of the application within 45 days of receipt of the application, after confirming the lending commitment. Upon approval of the application, the department shall enter into a contract with the plant that ensures the state's commitment to pay incentive payments to qualifying ethanol plants.

(b) If the department of transportation is not able to confirm a lending commitment, the department shall deny the application.

(7) After the department has verified production, the application provisions of subsection (6) are met, and the plant owner presents proof of financing, the department shall begin payments of the alcohol tax incentives based on actual production according to the terms of subsections (2) and (4).

~~(9) The department shall reserve, in the order that written plans required under subsection (5) are received by the department, alcohol tax incentives based on the anticipated time, quantity, and duration of production:~~

(10) A new tax incentive payment may not be made if the total tax incentive established in subsection (3) has been reserved or paid. If an alcohol tax incentive has been reduced or canceled, the amount by which the tax incentive has been reduced or canceled is available for reservation as provided in subsection (9).

(11)(8) The department shall prescribe rules necessary to carry out the provisions of this section. The department shall coordinate and request information and input from the industry as a part of the rulemaking process and shall follow the procedures provided in Title 2, chapter 4.<sup>""</sup>

A deduction is not allowed for salaries paid upon which the recipient has not paid Montana state income tax. However, when domestic corporations are taxed on income derived from outside the state, salaries of officers paid in connection with securing the income are deductible. A deduction is not allowed for claims paid by an insurer subject to the provisions of Title 33, chapter 2, part 7.

(b) (i) all losses actually sustained and charged off within the year and not compensated by insurance or otherwise, including a reasonable allowance for the wear and tear and obsolescence of property used in the trade or business. "15-31-119. Net operating losses — carryovers and carrybacks. (1) The net operating loss deduction is the aggregate of net operating loss carryovers to the taxable period plus the net operating loss carrybacks to the taxable period.

(2) (a) ~~The~~ Except as provided in subsection (2)(b), the term "net operating loss" means the excess of the deductions allowed by ~~this section~~ section 15-31-114 over the gross income, with the modifications specified in subsection (6) of this section.

(b) The net operating loss of a real estate investment trust must be computed with the adjustments provided in 15-31-113(2)(d).

(3) If for any ~~taxable period beginning after December 31, 1970~~ tax year, a net operating loss is sustained, the loss must be a net operating loss carryback to each of the three taxable periods preceding the taxable period of the loss and must be a net operating loss carryover to each of the ~~five taxable periods~~ tax years following the ~~taxable period~~ tax year of the loss.

(4) A net operating loss for any ~~taxable period ending after December 31, 1975~~ tax year, in addition to being a net operating loss carryback to each of the three preceding taxable periods, must be a net operating loss carryover to each of the ~~seven taxable periods~~ 7 tax years following the ~~taxable period~~ tax year of the loss.

(5) Except as provided in subsection (11), the portion of the loss that must be carried to each of the other ~~taxable~~ tax years must be the excess, if any, of the amount of the loss over the sum of the net income for each of the prior ~~taxable periods~~ tax years to which the loss was carried. For purposes of this subsection, the net income for the prior ~~taxable period~~ tax year must be computed with the modification specified in subsection (6)(b) and by determining the amount of the net operating loss deduction without regard to the net operating loss for the loss period or any ~~taxable period~~ tax year after the loss period, and the net income so computed may not be considered to be less than zero.

(6) The modifications referred to in subsection (2) are as follows:

(a) The net operating loss deduction may not be allowed.

(b) The deduction for depletion may not exceed the amount that would be allowable if computed under the cost method.

(c) Except to the extent provided in section 1382(b) of the Internal Revenue Code of 1986, 26 U.S.C. 1382(b), as that section may be amended or renumbered, a deduction for dividends paid or considered paid is not allowed.

~~(c)(d)~~ Any net operating loss carried over to any ~~taxable~~ tax year must be calculated under the provisions of this section effective for the ~~taxable~~ tax year for which the return claiming the net operating loss carryover is filed.

(7) A net operating loss deduction may be allowed only with regard to losses attributable to the business carried on within the state of Montana.

(8) In the case of a merger of corporations, the surviving corporation may not be allowed a net operating loss deduction for net operating losses sustained by the merged corporations prior to the date of merger. In the case of a consolidation of corporations, the new corporate entity may not be allowed a deduction for net operating losses sustained by the consolidated corporations prior to the date of consolidation.

(9) Notwithstanding the provisions of 15-31-531, interest may not be paid with respect to a refund of tax resulting from a net operating loss carryback or carryover.

(10) The net operating loss deduction must be allowed with respect to ~~taxable periods~~ tax years.

(11) A taxpayer entitled to a carryback period for a net operating loss may elect to forego the entire carryback period. If the election is made, the loss may be carried forward only. The election must be made on or before the date on which the return is due, including any extension of the due date, for the tax year of the net operating loss for which the election is to be in effect. The election is irrevocable for the year made.

(12) Notwithstanding any other provision of this section, the net operating loss deduction is not allowed in the case of a regulated investment company or a fund of a regulated investment company, as defined in section 851(a) or 851(b) of the Internal Revenue Code of 1986, as that section may be amended or renumbered.""
