This document on shared policy goals and accountability measures represents a merging of the following efforts that involved leaders from the legislature, the executive, the K-12 education system and the university system during the 2009-2010 interim:

- Board of Regents strategic goals and objectives
- Board of Public Education strategic goals and objectives
- Superintendent of Public Instruction strategic goals and objectives
- Shared policy goals and accountability measures developed by the Education and Local Government Interim Committee (ELG) Subcommittee on Shared Policy Goals

The shared policy goals developed collaboratively between the ELG Subcommittee and the state education agencies reflect a shared commitment to:

1. Aligning high school outcomes with college readiness expectations to facilitate the transition from high school to college
2. Increasing college participation of Montana high school graduates
3. Expanding distance learning opportunities
4. Utilizing K-20 data to improve student access and achievement

The document was reviewed by the 2011-2012 ELG and the relevant agencies.

This document is nonbinding. The ELG shall review, update, approve, and renew this understanding each biennium with the Montana Board of Regents, the Office of the Commissioner of Higher Education, the Board of Public Education, and the Superintendent of Public Instruction so that it may become the basis of state public policy in regard to the K-20 education system.

System such that funding a high quality public K-20 education system is a critical goal of the State of Montana. This document, in

conjunction with the definition of a basic system of free quality public elementary and secondary schools established in section 20-9-309, MCA, will provide the policy direction needed to maintain a quality public K-20 education system in Montana.

The authors of this document urge that it, along with 20-9-309, MCA, be used by the legislature in th 2013 legislative session to frame education budget initiatives and other policy recommendations for the 2015 biennium.
