SUBJECT: Report to the Legislative Finance Committee: FY 15 Montana University System Inter-Entity Loans [17-2-107(5), MCA]

Inter-Entity Loans Authorized to the Same Fund for 2 consecutive fiscal years

Loans to the Restricted Funds –Restricted funds account for sponsored activity, such as research or specific federal grants or contracts. Sponsored grants and contracts expenditures are generally made in advance of the cost reimbursement. An inter-entity loan bridges the timing of the expenditures and the subsequent receipt of cash from the sponsoring agency to maintain a positive cash balance. Because of the recurring nature of reimbursement grant expenses, inter-entity loans are used throughout the year. The outstanding loans to the restricted fund at fiscal year-end 2015, are shown on the attached worksheet as items 1 through 4.

Loans to Other Funds –Montana State University-Northern have outstanding loans to address an operating loss in the Auxiliary fund. This loan is noted item 5 on the attached worksheet.
