

The Board of Public Education is charged under the Montana Constitution with general supervision of the public school system and other public institutions assigned by law, including the Montana School for the Deaf and Blind. Located in Helena, Montana, the board cooperates with the Governor and other elected officials, the Board of Regents, the Superintendent of Public Instruction, local school boards, the education community, and all Montana citizens, including its students. The Board of Public Education and the Board of Regents meet twice a year as the Board of Education.

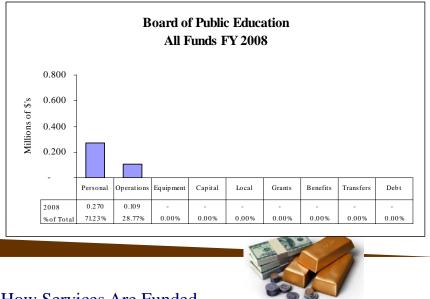

How Services Are Provided

The Board of Public Education is a seven-member group, appointed by the Governor, that exercises general supervision over the public school system in Montana, including the Montana School for the Deaf and Blind. It oversees all K-12 education, sets policy, and is responsible for school accreditation standards and content standards. It monitors schools to ensure that teaching, testing, and school standards are met. The board provides services through a single state agency program and a staff of 4.00 FTE with the following functions:

- Administration supports the efforts of the board and the advisory council by providing research, clerical functions, and management of business affairs for all programs under the purview of the Board of Publication Education.
- The seven-member Certification Standards and Practices Advisory Council was created in 1987 to study and make recommendations to the Board of Public Education regarding: (1) teacher, administrator, and specialist certification standards; (2) the status and efficacy of approved teacher education programs; and (3) the feasibility of establishing teaching certification and the appeals process.
- The Montana Advisory Council for Indian Education is attached to the Board of Public Education. This council advises the board and the Superintendent of Public Instruction on Indian education.

Section E

How Services Are Funded

General Fund is used to partially support the Board of Public Education.

State Special Funds:

Teacher certification fees of \$30 are charged at the initial time of certification and once every 5 years thereafter. The fee averages \$6.00 per year, and, by statute, the Office of Public Instruction (OPI) Certification/ Teacher Licensure Unit is responsible for collecting fees and depositing them in two state special revenue accounts for use by the board. \$4 is used for expenses of the Certification Standards and Practices Advisory Council (CSPAC) and \$2 is used for activities in support of the board's constitutional and statutory duties, special projects, and research studies of the CSPAC. In FY 2006, 27.5 percent of these fees was used to support the administrative functions and CSPAC.

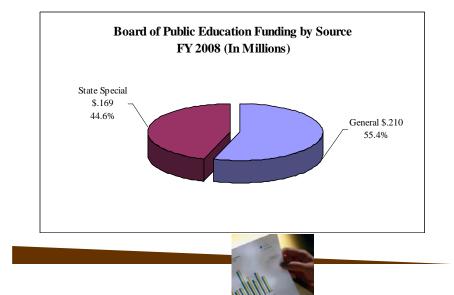

Federal Funds:

The Board of Public Education does not receive federal funding for its operations. However, in FY 2004 and FY 2005, the agency received a one-time-only amount of \$25,000 from the Jobs and Growth Tax Relief Act.

Related Data & Statistics

Element	2001	2008	Significance of Data	
Supervised school districts	460	432	Decreased workload	
Certified educators	12,097	12,514	Increased workload and potential revenue	
Spending/student*	\$6,812	\$9,204	Reflects attention to funding and standards and/or declining enrollment to education dollars in some areas	
Student/teacher ratio **	14.9 to 1	14.1 to 1	Reflects enrollment to teachers	
Board meetings/year	8	8	Consistent expenditures, workload	
Teacher preparation/ education/certification sessions	4	4	No change in number of sessions, but a definite increase in complexity of sessions and issues due to No Child Left Behind legislation and related data collection about qualification of teachers in subject areas	
No Child Left Behind issues	0	Now 50% of staff time	Workload increase	

- *FY 2007
- ** FY 2006

Reasons for Expenditure Growth/Change

- General Fund FY 2002 shows a significant increase in expenditures due to membership dues for the National Association of State Boards of Education as well as software and hardware upgrades that occurred during 2002. FY 2006 increases due to additional personal services costs, travel for MACIE members to attend the Board of Education meetings, out-of-state travel for board members to travel to national Association of State Boards of Education meetings and travel for the Board of Education meetings with the Board of Regents. FY 2008 increases are due to personal services costs
- State Special Fund The agency reduced the number of FTE in FY 2000 in response to a reduction in the collection of the fees, which decreased because of a decrease in the statewide teacher population. Teacher certification fees have not been increased in the last several biennia and as a result, the general fund covers the increased costs of the agency.
- Federal Fund This agency does not receive federal funds. However, in FY 2004 and FY 2005, the board, along with other state agencies, received Jobs and Growth Tax Relief Act funds. The board's allotment was \$25,000.

Agency Functions, State Purposes, & Customers Served

The agency is structured to perform certain functions in support of general state government purposes. The following lists the major functions, purpose of provision of the functions, and primary customers served.

State Purposes	Major Agency Functions	Customers
Develop the full educational potential of the state's citizens	Board activities and administration assesses the public education system	The board and the general public
	CSPAC sets teaching standards and oversees the status and efficacy of approved teacher education programs	All participants in the process of education ,including students, families, and communities

How the Legislature Can Effect Change

The seven-member Board of Public Education addresses its mandated duties with the assistance of four staff members. The level of on-going activity related to mandated duties and educational issues governs activity for this agency.

In order to change expenditure levels and/or activity, the legislature might address laws governing the powers, duties, staffing, and funding of the Board of Public Education

The legislature is less likely to control:

- The number of complaints that merit Board of Public Education action
- Federal legislation impacting the educational system
- Initiatives or legislation responding to citizen action
- Population growth or decline
- Economic factors' contribution to local funding of school districts
- The standards setting process

Statewide Factors With Impact

In addition to the factors above, a number of factors common to many agencies will also impact changes in expenditures over time.

The Board of Public Education equals people providing service; personal service costs are the primary influence that drives expenditures. These factors include the state pay plan and benefits, per diem, honorarium, workers' compensation, and unemployment insurance.

Other factors driving expenses include utilities and changes in statewide fixed costs, such as inflation/deflation and the cost to maintain buildings and technology.

Statutory References

The primary statutory references defining duties and responsibilities of the department are found at the following locations.

- Article X, section 9, of the Constitution defines the responsibilities of the Board of Public Education
- The board's shared responsibilities with the Board of Regents are discussed in Title 20, chapter 2, MCA
- 20-2-121, MCA defines the powers and duties of the Board of Public Education
- The CSPAC is created in 2-15-1522, MCA
- 20-4-109, MCA, sets the fee for teacher and specialist certificates and its administration by the Office of Public Instruction
