NOTICE OF PUBLICATION OF CATEGORICAL EXCLUSION
CITY OF WHITE SULPHUR SPRINGS, MONTANA
MAIN STREET WATER MAIN REPLACEMENT PROJECT

October 1, 2014

The Montana Department of Environmental Quality has reviewed the above named project. The project consists of replacing approximately 1,940 feet of 6-inch to 12-inch PVC water main. The project includes the installation of five new fire hydrants and all associated service connections, curb stops, valves and appurtenances. The project also includes the resurfacing or reclamation of all disturbed areas. The proposed water main installation work will occur along Main Street, and associated cross road intersections, from Central Avenue to Northeast 4th Avenue and at the intersection of Main Street and Northeast 5th Avenue.

The project construction specifications note the potential to encounter petroleum contaminated soil or water within the project site and include language on the procedures to follow if this were to occur. Pursuant to ARM 17.40.318, the Department has concluded that the proposed project meets the Categorical Exclusion criteria of the National Environmental Policy Act (NEPA) and the Montana Environmental Policy Act (MEPA). The Categorical Exclusion may be revoked if the project is not initiated within the time period specified in the planning documents, a new or modified application is submitted, new evidence demonstrates serious local or environmental issues exist, or state, local, tribal, or federal laws are violated.

The documentation for the Categorical Exclusion is available for public review at the following locations:

Department of Environmental Quality
State Revolving Fund Loan Program
1520 East Sixth Avenue
Helena, MT 59620

City of White Sulphur Springs
105 West Hampton
