05:08:41	Rep. Funk asked if they could add an endorsement similar to special education.
05:10:19	Ms. Aiken said few people get the special competency because there is no pay
	impact, they are just trying to hire teachers.
05:14:09	Sen. Salomon said because of national testing and benchmarks, the stigma is
	we are teaching to the lower level to move them up and increase test scores. He
	said that goes against dealing with gifted and talented and asked how do we
	deal with that issue?

Mr. Elder said differentiating education within the classroom and challenging

	everyone at all times, gifted and talented is a vehicle offering opportunities.

	adding however many million more to even it out.

	everybody.

HJ 1 STUDY - WRAP UP

05:54:43	Mr. McCracken discussed the report. (Exhibit 22)
05:58:16	Rep. Funk said they didn't talk about kids on 504s and said she wondered if they

06:00:33	should include an additional paragraph Sen. McClafferty asked if they could include a committee suggestion that OPI hire someone to fill vacant position and have the Board of Education and the
06:01:09	legislature talk about aligning rule in statute. Sen. Salomon said special needs are becoming more prevalent within schools and it is overloading the system, they need to do something different.
06:03:22	Rep. Funk said she concurred and noted one success was removing the stigma so parents and students aren't as reluctant to get help.
06:04:53	Mr. McCracken read back the committee's ideas.
06:08:07	Sen. McClafferty asked about the next interim.
06:09:31	Sen. Tempel said he would like to see what issues schools around the state face, each district has own unique situation.

COMMITTEE BILL DRAFTS FOR K-12 (OTHER THAN HJ 1 RELATED)

07:34:33 Mr. McCracken discussed a memo attached to bill draft LC PUPL. (Exhibit 23)

<u>Motion</u>

07:37:11	Sen. Salomon moved	d to amend the bill draft.
----------	--------------------	----------------------------

07:37:29	Rep. Funk asked if they had all the bill drafts.
07:37:38	Mr. McCracken said they just needed to amend.

07:37:53	Sen. McClafferty asked to see the new 307 with new language tomorrow and assign it.
<u>Vote</u> 07:38:17	The motion carried on a unanimous voice vote.
07:38:31	Mr. McCracken said he would bring an updated draft 307X tomorrow, the rest of
07.00.04	the bill drafts have previously been adopted. He said Rep. Funk had asked him if pure cleanup bills could be grouped together.
07:39:24 07:39:31	Sen. McClafferty said that was a good idea. Mr. McCracken said it was most natural to join first three bill drafts, the last two could be perceived as a little more policy and not entirely cleanup.
07:40:29	Rep. Funk said 307s should be by itself.
07:41:02	Sen. McClafferty asked to see the three consolidated in one bill to be assigned tomorrow.
07:41:20	Sen. Salomon said it should probably be run by the Legal Services Office.
07:41:37	Mr. McCracken agreed.
07:41:50	Mr. McCracken discussed the pupil definition bill draft.
07:45:22	Sen. Salomon asked if every district has kindergarten.
07:46:37 07:47:20	Rep. Funk said she could see why this would get them in the weeds. Rep. Funk asked what she was missing on subsection 2 and subsection 4.
07:50:08	Rep. Funk said the flexibility here is the child with disabilities can receive
07.30.00	services through the district as early as 2-years.
07:50:52	Rep. Funk said the parents can then keep the child out of regular classroom until
01.00.02	age 7.
07:51:17	Sen. Tempel said he was confused about kindergarten. Does a 7-year old have to start kindergarten? Where is the law?
07:52:40	Sen. Salomon said he recollected age 7 was put in for first grade before kindergarten was heard of. He asked if is kindergarten a must instead of an if
	you want to.
07:54:14	Mr. McCracken said they are not touching compulsory age.
07:56:18	Ms. Sankey Keip discussed a related statute.
07:56:37	Mr. McCracken read a related statute.
07:56:44	Rep. Funk said the main point was consistency and clarification.
07:57:50	Sen. Salomon said there can't be a fiscal note.
07:58:13	Sen. McClafferty asked if they want to adopt LC PUPL.
<u>Motion</u>	
07:58:21	Rep. Anderson moved they adopt LC PUPL.
07.00.21	Trop. 7 madroom moved they adopt 20 1 of 2.

Report from Subcommittee on State Financial Aid Programs and Review of LC FAID - Laura Sankey Keip

Laura Sanke	y Keip
00:09:18	Ms. Sankey Keip discussed memos. (Exhibit 25) (Exhibit 26) (Exhibit 27).
00:15:38	Rep. Funk asked about federal match.
00:17:15	Mr. McCracken said the governor has communicated a desire to see more need-based aid.
00:18:38	Sen. Salomon said they are talking about not only taking money for STEM, but two other programs.
00:24:49	Sen. Jones asked if they take money out of lottery right up front, in which case would they use the number for.
00:26:15	Sen. Jones said they should put a limit, or try to control it.
00:28:26	Sen. Salomon said Rep. Jones' issue was front and center in the discussion
	regarding a ranking system. He said he would like to see the committee come up with a solution.
00:29:28	Rep. Jones' said his suggestion is first-come first-serve.
00:31:51	Sen. Salomon asked when the transfers take place into the general fund.
00:32:44	Mr. McCracken said the transfers to the general fund are called net proceeds
	and require that the lottery has met all other expenses first.
00:33:15	Sen. Salomon said one of the issues is whether there will be enough in the fund
	since you can't control the flow in.
00:34:35	Sen. McClafferty asked about the general fund.
00:35:44	Rep. Funk asked about Sec. 17, page 13, if the total amounts are less than on
	Sept. 1 then they have to do something the day before?
00:38:19	Rep. Funk asked if they have consensus on moving in this direction.
00:38:33	Sen. Salomon said the governor's office has said they would like to see more
	need-based. He said the Promise Act was a great idea but no money was thrown
	into it.
00:39:41	Rep. Funk said she remembered a chart showing different programs and zeros, she said the titles and ideas are lovely, but it is more important to get some money and actually help these students.
00:42:19	Sen. McClafferty asked about the superintendent.

00:42:43 Rep. Jones said he thought it was a no-brainer, clean-up portion. 00:43:00 Ms. Sankey Keip said the subcommittee requested two bills be drafted. Sen. Tempel asked if there was a need-based criteria anyone talked about. 00:43:26 00:43:59 Sen. Salomon said the short answer was no. 00:44:16 Ms. Sankey Keip said a document from a few meetings ago showed the three bodies would work together to fund three types of financial aid, merit, workforce development and financial need. Mr. McCracken said there has never been statutory criteria regarding need-00:45:54 based aid. Mr. McCracken asked if overflow can go to need-based aid. 00:46:18 00:47:03 Ms. Sankey Keip said the current draft says excess funds must be carried over from one fiscal year to the next but is more permissive. Rep. Jones asked who decides criteria for needs-based aid? 00:48:32 00:49:00 Rep. Funk said STEM might be first-come first-serve, but needs-based would be more pragmatic. 00:49:22 Mr. McCracken said he was trying to avoid proration or first-come first-serve for STEM with any excess flowing to need-based. 00:50:14 Rep. Funk asked about the \$2.7 million for first-come first-serve. 00:50:38 Mr. McCracken said they aim to design a program that will fall under \$2.7 million and build in a cushion to reliably fund STEM for everyone who is entitled to it and have a little for need-based aid as well. 00:51:15 Rep. Jones asked about section 7 and said the verbiage skirts around needs. 00:53:44 Rep. Funk asked why it was changed from assistance to aid, is that the more current or accepted language? Input from foundation directors 00:54:04 Sen. McClafferty invited the foundation members to the table. 00:54:20 Chris Murray, president and CEO, Montana State University Alumni Foundation 00:54:35 Cindy Williams, president and CEO, University of Montana Foundation 00:54:47 Mr. Murray presented information about a matching gift program. Ms. Williams shared a quote: "Talent is equally distributed across society, but 00:57:27 opportunity is not." She said making awards based on need doesn't exclude those with merit. 01:00:26 Rep. Funk asked if funds would only go to the main campuses. 01:00:50 Mr. Murray said OCHE manages the funds and it goes to all campuses across state. 01:01:55 Rep. Funk said that was the right answer. She asked if the intention is to make it a one-time appropriation to be renewed every year? 01:02:26 Mr. Murray said they don't want the state to see it as an ongoing obligation. They want to prove the concept and build culture of philanthropy.

the appropriation to build a culture of giving on their campus.

Sen. Salomon asked about need-based aid.

Ms. Williams agreed and said it allows smaller campuses in the system to use

Mr. Murray said it could be distributed by institution type, or other ways, he doesn't see an issue, doesn't see need vs. merit as mutually-exclusive.

Ms. Williams said the foundations don't have any input on the students who

receive aid, that is determined by offices of financial aid through guidance by

01:10:17 Sen. McClafferty asked if financial need families need to apply. Sen. Tempel asked when forms come in, is it first-come first-serve? 01:12:01 01:13:46 Ms. Williams said for some students who are late entries to campus, there is potential there isn't as much aid available at that time. 01:16:33 Rep. Funk asked if high schools are doing a good job getting this information to students. 01:17:07 Ms. Albrecht said during her experience in higher education she found institutions promote the scholarships to attend Montana schools. Sen. McClafferty said they could clean it up and get rid of scholarships that don't' 01:18:37 have any money. Sen. Salomon said they need to take a significant look at this and come up with 01:18:56 a plan that works. 01:19:35 Mr. Murray said the concept of consistency of promise to a student is an issue. He discussed endowments. Sen. McClafferty asked if there is a ballpark figure. 01:21:26 01:21:38 Mr. Murray said \$16.8 million was the initial number, but they have come to believe even a modest amount this first time out would work to prove the concept. Sen. McClafferty asked if there would be record-keeping on amounts and how 01:22:39 many students are affected. Mr. Murray said yes they have to do a stellar job reporting out and he envisions 01:22:57 an annual report. Rep. Funk said it was a great idea. 01:23:47 Rep. Funk asked about MUS research initiative, MREDI and noted it was not 01:25:28 funded last time. She asked if it was in their books and it just didn't get funded or does something have to be brought? 01:26:20 Ms. Albrecht said \$15 million for MREDI it was an OTO. She said last session was tight and the funds went away. She said those programs are ongoing and they were able to leverage some money.

BILL DRAFT DISCUSSION

BILL DRAFT DISCUSSION		
Sen. Salomon asked about access to higher education and need.		
Rep. Jones said he was still stuck on not having enough money and awards		
were made to students. He said to strike the line that says excess funds are		
carried over and do the financial need part separately. He said money should		
just stay in STEM program and build up.		
Rep. Anderson concurred. He said it was imperative that scholarships listed be		
funded and excess money carried forward and kept in an account.		
Rep. Jones said they may need to put a maximum like 125% of next year.		
Ms. Albrecht agreed a max would be good but it would come down to what level		
of scholarship is determined.		
Sen. McClafferty asked the committee what they wanted to give yearly.		
Sen. Salomon said we can come back every two years and adjust the awards,		
it's not the biggest issue. He said they should discuss the difference where it		
stands now and how it affects the budget.		
Sen. McClafferty asked if they could come back to the discussion after they		
know funding.		
Rep. Jones said yes.		

01:34:19	Sen. McClafferty said they need to decide how to award STEM amount.
01:34:35	Rep. Funk said she liked that it goes to four years starting at \$1,000 with a small
	increase each year.
01:35:23	Rep. Anderson said he agreed with the concept but would prefer \$6,000 total
01.00.20	over four years.
01:36:21	Sen. Salomon asked if the consensus is they like the 7th option a little better?
01:37:47	Sen. McClafferty asked if they ask for work study money separately?
01:37:59	Rep. Jones said it can get changed during the process but they could put it all in
01.07.00	one build.
01:38:43	Sen. McClafferty said three members like option 7.
01:38:55	Rep. Funk asked if it would get too complicated to say if you are in a two-year
01.00.00	institution you get \$1,000-\$2,000 but if in a four-year institution you get the
	\$6,000.
01:39:38	Sen. McClafferty said a lot of students go from two to four-year, how would that
01.39.30	work?
01:39:55	Ms. Albrecht said part of the goal of the two-year campus is to transfer to other
01.39.33	institutions of higher education, the other part is to enter the work force.
01:41:22	Sen. McClafferty said if they decide to go to four-year college they could reapply.
01:41:26	Ms. Albrecht said they would need to indicate they are receiving aid at another
01.41.20	institution.
01:41:46	Sen. Salomon said the eligibility should be pretty simple.
01:43:36	McClafferty asked for a motion to amend the draft.
01.45.50	McClanerty asked for a motion to amend the draft.
