RE: Small School Adjustments in Montana and Other States

The Purpose of this report is to investigate small school adjustments in states nearby to Montana, to provide a cost if they were instituted in Montana, and to look at the status of small schools in Montana.

This report is laid out as an excel spreadsheet. This memo will serve to guide the reader through the sheets in the spreadsheet. The sheets are viewable at the bottom of the spreadsheet and are meant to be read from the left to the right.

The first sheet is entitled "Current Law" and contains current Montana Law regarding small schools isolation status and consolidation. There are no special budgetary adjustments available for small school districts in Montana. There is no minimum size school district in Montana.

The second sheet is entitled "Size" and contains the number of districts in each size category for elementary districts, high school districts and K-12 districts. These size categories are the ones used by OPI in categorizing districts by size and were used by the Quality Schools Interim Committee in 2005. Note for the purposes of this paper that there are 102 elementaries that were less 41 ANB, and 30 high school districts that were less than 75 ANB. These data are from fiscal 2007.

The third sheet is entitled CL and shows the FY2009 elements districts must use in building their maximum budgets under current Montana Law.

The fourth sheet is entitled "Max Budget Small" and contains an illustration of the Maximum district general fund budget in K-6 districts smaller than 25 ANB and in K-8 districts between the sizes of 25 ANB and 49 ANB. The smallest K-6 in the state has 2 ANB (Kester Elementary in Garfield County) and the smallest K-8 in the state has 28 ANB (Pine Creek Elementary in Park County).

The fifth sheet is entitled "StatesANB" and contains the small school adjustments used in the states of Oregon, South Dakota and North Dakota. All three of these states provide small school adjustments that increase the budgeted ANB (or in their case, average daily membership, or ADM) for small districts. The data include the method used, the qualifying criteria, the enhancement provided, an example of its effect in the state concerned and the impact in Montana if employed here. The final piece of data for North Dakota was not available due to lack of Montana data.

The sixth sheet is entitled Oregon and contains two charts showing graphically the impact of the small school adjustment on budgeted ADM in Oregon.

The seventh sheet is entitled States Resources and contains the small school adjustments used in the states of Washington and Wyoming. These two states specify a minimum set of resources required to run small schools and multiply times a price for each resource, although data on resource prices was not available from Washington. The final entry shows the cost in Montana if it raised the elementary basic entitlement to \$75,000.

The eighth sheet is entitled "Small" and contains a listing and pertinent budget and actual spending data for all districts in the state sorted by ascending size of district.

The ninth sheet entitled "Options" contains a set of options to increase funding to small K-6 districts.

## Current Law in Montana Regarding Small School Districts

20-9-302. School Isolation - A district may ask to be designated as isolated if it has less than 10 elementary students or less than 25 high school students for two years in a row. It must document that it has poor roads, mountains, rivers or other obstacles to travel to another school. If they are approved then they are designated as isolated.

20-9-303. Non-isolated status - if school is not approved for isolation status and has nine or fewer elementary students it receives only half the direct state aid it would otherwise qualify for. The other half must come from district taxes.

20-9-311-8-(a). Multiple Budget Units - if a school of a district is located more than 20 miles from another school of the district then it designated as separate budget unit and is allowed a separate basic entitlement, and its own ANB entitlement.

20-9-311-8-(a)(iv). Consolidation - When two or more districts consolidate, the ANB entitlement and the basic entitlement must be calculated separately for three years. In the following three years, the additional basic entitlement is 75 percent in the $4^{\text {th }}$ year, 50 percent in the $5^{\text {th }}$ year and 25 percent in the $6^{\text {th }}$ year. In the seventh year, the consolidated district is allocated only one basic entitlement.

There is no minimum size to qualify as a school district in Montana

| Number of Districts by Size Category - FY 2007 |  |

| Elementary Basic Entitlement |  |  | 21,922 |  |  | The smallest K-8 in Montana had 28 budgeted ANB in FY 2007 |  |  |  |  |  |
| Middle School Basic Entitlement |  |  | \$ 62,083 |  |  |  |  |  |  |  |  |
| Elementary Per ANB Entitlement |  |  | \$ 4,716 |  |  |  |  |  |  |  |  |
| Middle School Per ANB Entitlement |  |  | \$ 6,037 |  |  |  |  |  |  |  |  |
| Quality Educator Payment per FTE |  |  | \$ 3,042 |  |  |  |  |  |  |  |  |
| Indian Ed For All Payment per ANB |  |  | \$20.4/ANB, Min \$100/district |  |  |  |  |  |  |  |  |
| At Risk Payment |  |  | Varies depending on amount of Title I monies received from federal |  |  |  |  |  |  |  |  |

| State | Method to enhance money for rural <br> districts | Qualifying criteria to be rural | Formula enhancements | Example |
| :---: | :---: | :---: | :---: | :---: |

General Method: Boost Average Daily Membership (i.e. Number of Kids) for Districts below an Enrollment Threshold

| Oregon | Boost Average Daily Membership for districts below an enrollment threshold | Elementary districts with 8 grades < 224 ADM, with threshold reduced by 28 for every one less grades and more than 8 miles from nearest school | Added Elementary ADM $=\{224-($ ADM $/$ (number of grades in school / 8) ) $\}$ $.0045 \times$ ADM x distance adjustment. Minimum ADM $=25$ | 80 kids in school additional \$311,040 | 227 districts would count an additional 7,782 students at a cost of \$36.7 million |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | High school districts with 4 grades $<350$ with no distance adjustment | Added High School ADM $=\{350$ (ADM / (number of grades in school / 4)) $\} \times .0029 \times$ ADM. Minimum ADM $=$ 60 | 250 kids in school additional \$435,000 | 130 districts would count an additional 8,427 students at a cost of $\$ 51.0$ million |
| South Dakota | Boost per ADM payment for districts with enrollment below a threshold | Less than 600 students per District - All Districts K-12 | if less than 200 students - 0.2 x $\$ 4,237.72$ added to $\$ 4,528.8$ times enrollment | 80 kids additional $\$ 67,804$ | 331 elementary districts would receive an additional \$19.4 million; 97 high schools would receive an additional $\$ 15.3$ million. |
|  |  |  | If more than 200 students but less than 600 students - Enrollment x (.0005) + .3) * 4,237.72 * Enrollment | 250 kids additional \$185,400 |  |

| North Dakota | Boost per ADM payment for districts with enrollment below a threshold | Isolated Elementary - less than 50 students | If $15 \%$ of district students travel 15 miles or more to get to school, elementary is isolated and is guaranteed a count of 15 students weighted by an additional 25 percent |  | NA |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Isolated High School - Less than 20 students | If $15 \%$ of district students travel 15 miles or more to get to school, high school is isolated and is guaranteed a count of 20 students weighted by an additional 25 percent |  | NA |
|  |  | Additional weights for small high schools | 0 to 185 students - $25 \%$ |  | NA |
|  |  |  | 186-900 students - sliding scale between $25 \%$ and 0 percent |  | NA |
|  |  |  | > 900 students 0\% |  |  |

## Small School Adjustments in States Near Montana

| State | Method to enhance money for rural <br> districts | Qualifying criteria to be rural | Formula enhancements | Example |
| :---: | :---: | :---: | :---: | :---: |

General Method: Specify Minimum Set of Resources for Districts Below an Enrollment Threshold

| Washington | Specify Minimum Set of Resources for Districts Below an Enrollment Threshold | For enrollments less than 25 | K-8 - 1-5 students -- 1.76 instructional staff and .24 admin units | NA | NA |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | K-8-5-25 students 1.76 instructional $+($ FTE-5)/10 plus .32 admin units | NA | NA |
|  |  | For enrollments greater than 25 but less than 100 | K-6-2.76 instructional staff and .24 admin units | NA | NA |
|  |  |  | 7th \& 8th grades .92 instructional staff and .08 admin units | NA | NA |
|  | Washington has other resource allocations for "remote and necessary" districts usually on islands |  |  |  |  |

|  | Specify Minimum Set of Resources for Districts Below an Enrollment Threshold | For enrollments less than 50 | Districts less than 50 students - 1.7 teachers per 7 students. The teachers allocated times $\$ 43,938$ salary, adjusted for experience and education | 35 student $=$ 8.5 teachers * $\$ 43,938=$ $\$ 373,473$ | 129 districts would receive $\$ 30.7$ million more. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Wyoming |  |  | Three admin positions are allocated to districts less than 50 students. 1 super - $\$ 95,211$, ass't super \$76,169, business mngr - \$64,202. Add 19.66 percent for benefits plus $\$ 8,169$ for health | $\begin{aligned} & \$ 235,582 \text { for } \\ & \text { admin } \\ & \text { positions } \end{aligned}$ | 129 districts would receive $\$ 36.7$ million more at Montana prices |

| Montana | Raise Elementary basic entitlement to <br> $\$ 75,000$, |  | $\$ 10$ million in state <br> cost, raise maximum <br> budgets $\$ 17$ million |
| :--- | :--- | :--- | :--- | :--- |

Should the Legislature Change the Way Small K-6 School Districts Budget?

| Proposal | Cost to <br> State | Cost to <br> K-12 |
| :---: | :---: | :---: |

## Option 1

Raise K-6 Basic Entitlement $(\$ 21,922)$ to some
Higher Amount based on an analysis of costs of K-6 with 10 or fewer ANB

| Teacher | $\$$ | 30,000 |  |  |
| :--- | ---: | ---: | ---: | ---: |
| Benefits | $\$$ | 9,000 |  |  |
| Classsroom Costs | $\$$ | 3,000 |  |  |
| Books, Materials | $\$$ | 2,000 |  |  |
| Other staff | $\$$ | 20,000 |  |  |
|  |  |  |  |  |
| Total | $\$$ | 64,000 | $\$ 8 \mathrm{~m}$ | $\$ 13 \mathrm{~m}$ |

These numbers are for illustration only.

Option 2
Deem that all districts have at Minimum 10 ANB $\quad \$ 4 \mathrm{M} \quad \$ 6 \mathrm{M}$

Option 3 | $\begin{array}{l}\text { Raise Basic entitlement to some level (say \$75,000), } \\ \text { begin counting ANB only after 10th ANB }\end{array}$ | $\$ 0 \mathrm{M}$ | $\$ 0 \mathrm{M}$ |
| :--- | :--- | :--- | :--- | :--- |

Option 4
Require that a district must have a minimum number
of ANB for a set number of years, or else it must close and consolidate with another district \$??? \$???

## Senator Kitzenberg's Question:

What are several Options that could be implemented to increase funding for school districts in FY 2009

Note: None of these options could be accomplished without a special session of the Legislature
Local Resources
The current law with respect to general fund budgets and local property taxes is
as follows

| A. | $\begin{array}{c}\text { A district may budget at the higher of last year's budget or this year's maximum } \\ \text { budget }\end{array}$ |
| :---: | :---: |

| B | If the property tax revenue required to reach last year's budget or this year's <br> maximum is greater than levied last year, then the increase must be put to a vote |
| :---: | :---: |

| Option 1 | Allow districts the higher of last year's budget after applying a growth factor (say |
| :---: | :---: |
| inflation) or this year's maximum budget. |  |

| Option 2 | Eliminate law regarding last year's budget or this year's maximum, allow whatever <br> budget a district chooses; require any property tax increase to be voted on. |
| :---: | :---: |

| State and Local Resources |  | State Cost |
| :--- | :--- | :--- |
| Option 1 | Raise basic and per-ANB entitlements by some amount | $1 \%=\$ 5 \mathrm{M}$ |

| Option 2 | Increase the Quality Educator Payment | $10 \%=\$ 4 \mathrm{M}$ |
| :--- | :--- | :--- |

| Option 3 | Allow districts to choose the higher of the prior year's budgeted ANB or <br> this year's budgeted ANB for FY 2009 | $\$ 12 \mathrm{M}$ |
| :--- | :--- | :---: |

| Option 4 4 | Use the School Unit Concept and add it to the formula with the money to <br> be used for operating expenses; School Unit is 1 unit is 250 ANB for a K. <br> 6, 450 ANB for a 7-8 program, and 800 ANB for 9-12 program. | Legislature <br> chooses <br> amount |
| :---: | :--- | :--- | :--- |

| Option 5 | Use the actual inflation for FY 2009 rather than the Inflation Cap (3\%) | $\$ 2 \mathrm{M}$ |
| :---: | :---: | :---: | :---: |
